EXPERIENCE

Angels on Wheels Non-Profit Project   **January 2023 – May 2023**
Software Engineer   *Fredericksburg, VA*
- Collaborated with a team of developers to design and develop a website for the non-profit organization, Angels on Wheels, using HTML, CSS, PHP, JavaScript, SQL, and GitHub.
- Worked with our client to develop a volunteer database website for efficient volunteer, event, and campaign management.
- Participated in regular team stand-up meetings to facilitate the application of agile software development methodologies, ensuring project completion within established timelines.
- Conducted comprehensive software testing and created documentation to improve performance and support future maintenance efforts.

Publix   **July 2022 – Present**
Produce Associate   *Fredericksburg, VA*
- Provide careful attention to detail in receiving and unloading of deliveries to guarantee the preservation of product quality and safety.
- Utilize teamwork to ensure efficient inventory stocking and shelving practices, consequently optimizing product organization.
- Deliver excellent customer service while resolving conflicts; demonstrating strong problem-solving skills.

CVS Health   **July 2015 – August 2020**
Shift Supervisor   *Fredericksburg, VA*
- Operated the cash register, upheld store maintenance, and delivered exceptional customer service.
- Spearheaded the planning and execution of planograms for different sections of the store.
- Managed cash deposits, invoices, and various office responsibilities.
